- Face Masks

CONFERENCING

To assist in the detection and prevention of the spread of the Coronavirus infection, our conference venues will include:

Food and Beverage

Lunch and refreshments will be served according to the social distancing guidelines set out by the Government and WHO protocols. Bottled water will be supplied per delegate, and snacks for refreshment breaks will be pre-packed for each delegate.

Hotel staff will be assisting with the serving of coffee & tea during breaks and the 3-course set lunch menu, as no buffet service is allowed presently.

Furthermore, should a conference be run using various venues (e.g. video conferencing), the Hotel can host refreshment breaks and lunch in various areas of the hotel to ensure social distancing.

Venues And Set Up

We will allow schoolroom seating, with 1 delegate per conference table and cinema seating with ample spacing between the chairs. No alternative seating will be permitted to ensure that social distancing guidelines are always maintained.

The Hotel can also host video conferencing to enable large conferences to take place while maintaining the social distancing guidelines.

Conference Delegate Arrivals

Delegates will be requested to complete a self-assessment form when registering for the conference. All delegates must wear a mask at all times. Should a delegate not have a mask, the hotel will provide them with one. Sanitiser stations have been installed in the reception, with temperature checks at the conference level upon arrival.

Snack breaks and lunch will be served following the social distancing guidelines set out by the Government and WHO protocols. Additionally, all venues will be Sanitised during each Refreshment Break and Lunch.

WE ARE IN THIS TOGETHER.

Laughter and joy are just as contagious as fear and panic. Stay calm and let's ride this wave out together.

We look forward to welcoming you back to BBH.
